David Campa

Darrell Edwards

Harris Award Shared by Two

For the second time in its 11-year history, the John B. Harris Award will be shared by two outstanding School of Medicine graduating students: David R. Campa of Van Nuys and Darrell L. Edwards of Oakland. The award is given annually to the UCSF graduate who best exemplifies the qualities of Harris, the black faculty member, physician and civil rights advocate, who died in 1973.

During his years as a medical student, Campa elected to work as a psychiatric clerk in the intense environment of the jail ward at SFGH, where he dealt with very ill patients, mostly from lower socio-economic groups.

With little spare time on his hands, he still managed to participate in several campus-wide and outside community activities geared to the medically underserved, including the School of Medicine admissions committee, the minority admissions panel, the registration fee advisory committee to the Chancellor, executive board of the Associated Students of UCSF, Chicanos in Health Education (CHE), and the California Chicano/Latino Medical Student Association, of which he currently serves as Northern California coordinator.

Campa received his BA in Human Biology in 1984 from Stanford, and graduated with honors in 1988 from the UC Berkeley School of Public Health with a MPH in Health Policy and Administration. He plans to do his resi-

(continued on page 2)

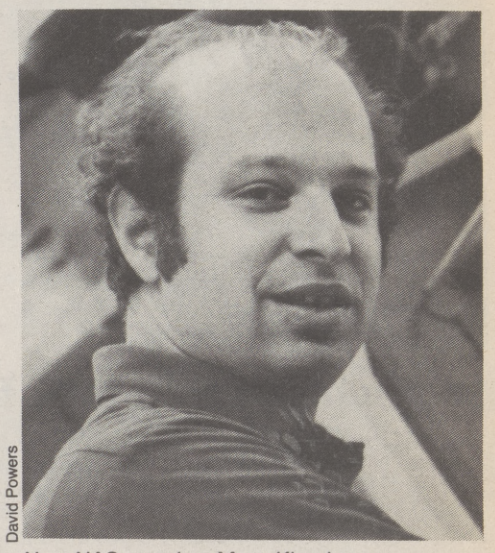
Marc Kirschner Elected to National Academy of Sciences

Marc W. Kirschner, professor of biochemistry and biophysics, has been elected to the National Academy of Sciences, one of the highest honors that can be received by an American scientist. Members of the Academy are elected in recognition of their distinguished and continuing achievements and original research.

Kirschner was one of seven new members named to the Academy this year from the nine UC campuses. His election brings the total of Academy members from our campus to 13.

Kirschner's pioneering work in cell biology has given scientists the ability to visualize and understand cell shape in the same way that the researchers who discovered DNA opened the door to the understanding of genetics.

Kirschner's research is in the morphology, or structure, of the cytoplasm of the cell. His particular interest has been in studying actin and tubulin, two proteins that are involved in cell shape and structure and, in particular, the role of the proteins in cell division. The shape and structure of a cell determines its role; for example, whether it is to function as a brain cell or as a cell in the liver.



David Powers

New NAS member Marc Kirschner

He and his colleagues have developed highly sensitive methods of visualizing and studying the skeleton of the cell. This "cytoskeleton" is filled with a network of filaments and tubules that serve the cell as both muscle and skeleton and give the cell its shape.

"Toxins and the Workplace," an Open Discussion May 18

"Is my building making me ill?"

That is one of several questions to be posed to University Advancement & Planning Vice Chancellor Bruce Spaulding and EH&S Assistant Vice Chancellor J. Leroy Balzer during "Toxins and the Workplace," an open discussion to be held on Thursday, May 18, from noon to 1 p.m. in HSW 302.

"This hour has been set aside for an open and frank discussion," says Department of Pharmacy's Trinity Ordona, chair of the Chancellor's Staff Advisory Committee, which is sponsoring the event.

As there will be no formal presentation, members of the campus community are asked to bring along their questions, concerns and fears. Maybe you would like to know: "What's the difference between a toxin and an irritant?" "Are we getting headaches and feeling dizzy from toxins in our ventilation system?" "Are some buildings more prone to this than others?" "Do we have an asbestos problem on campus?" "Are video displays harming us?" "What are the future plans for handling the UCSF 'space crunch?'"

So, keep your May 18th noon hour open, bring your questions and find out some answers! In the meantime, if you have any questions regarding the discussion, call Anne Poirier at x67033.

Award winners (seated from left) Mary E. Duffy, Dean Jane Norbeck, Fran Koperniak, Susan Shea; (standing, left to right) Jane Keeley and Teresa Juarbe

Nursing to Honor Eight at Commencement

The School of Nursing has chosen three faculty and five students to receive top honors at commencement on Saturday, May 20, beginning at 10 a.m. at the Marin Veteran's Memorial Auditorium.

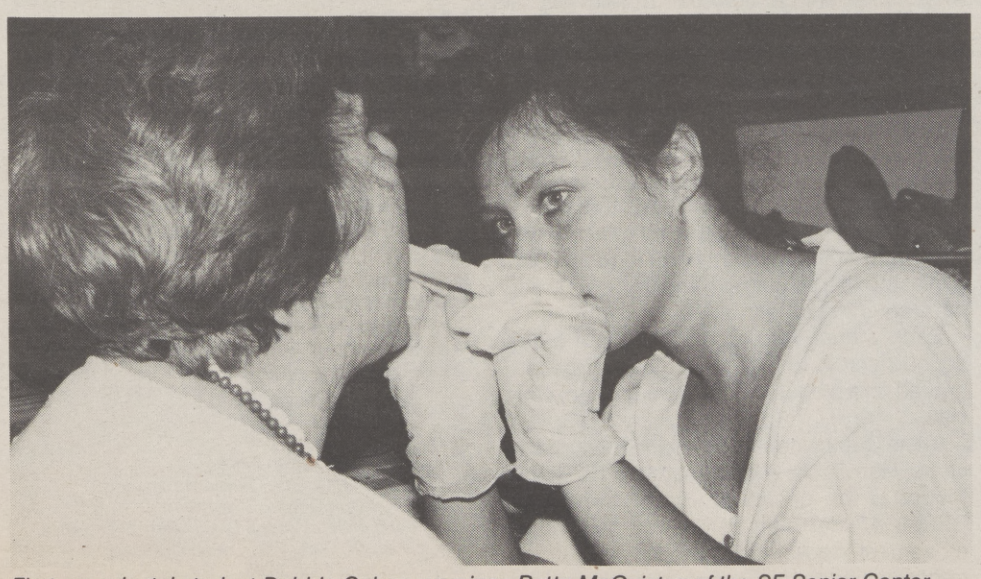
Susan Shea has been selected as the outstanding BS/MS student while Mary E. Duffy has been chosen as the BS/MS Teacher of the Year.

Teresa Juarbe, Jane Keeley and Fran Koperniak will be recognized as outstanding MS students and Teacher of the Year will go to Robert Slaughter. Among doctoral students, Marsha Cohen will be honored with the Distinguished Dissertation Award. Mentor of the Year Award will go to Jane Norbeck, who has just become dean of the School.

Class marshals will be Mary Lou Muwaswes (BS), Virginia Cleland (MS) and Afaf Meleis (DNS/PhD).

A total of 276 graduates will receive diplomas, including 22 BS degrees, 228 MS degrees, 17 DNS, 4 Doctors of Philosophy in Nursing and 5 Doctors of Philosophy in Sociology.

Senior Wellness Day at Laurel Heights



First-year dental student Debbie Cohan examines Betty McQuiston of the SF Senior Center during the Senior Wellness Day health fair at UCSF-Laurel Heights last Saturday. Seventy-five UCSF students from all four schools checked for hypertension and high glucose levels and gave vision tests. The fair was coordinated by second-year medical student Ken Grullon.

Millberry Construction: First the Good News

If there's one thing this campus doesn't lack it's activity . . . especially the construction kind. The noise, the dust, the shutdowns, the general inconvenience is all worth it once you see the finished product.

Take the new Plaza Grill and Something Sweet Bakery. You now can stroll over to the Millberry Union plaza, sit outdoors in a sidewalk cafe setting, perhaps order a carne asada (grilled beef chunks—Southwestern style), nibble on a brownie, sip a cappuccino, and then saunter on back to work.

But, after dining in the plaza, you might consider getting rid of those calories by stepping into another recently completed project: Millberry's new Fitness Center. You can peddle, climb, row, stretch, pump and pull your

(continued on page 2)

Magnetic Resonance Science Center Dedication Symposium May 13

UCSF's new Magnetic Resonance Science Center will be dedicated with a scientific symposium on Saturday, May 13.

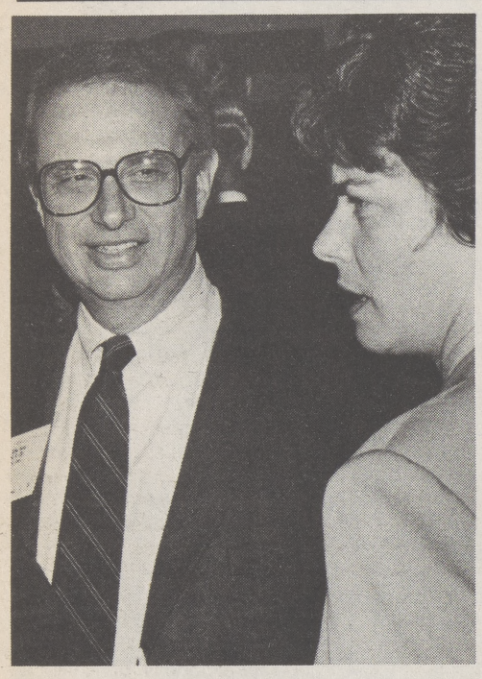
The symposium will begin at 9 a.m. in Cole Hall with the following presentations:

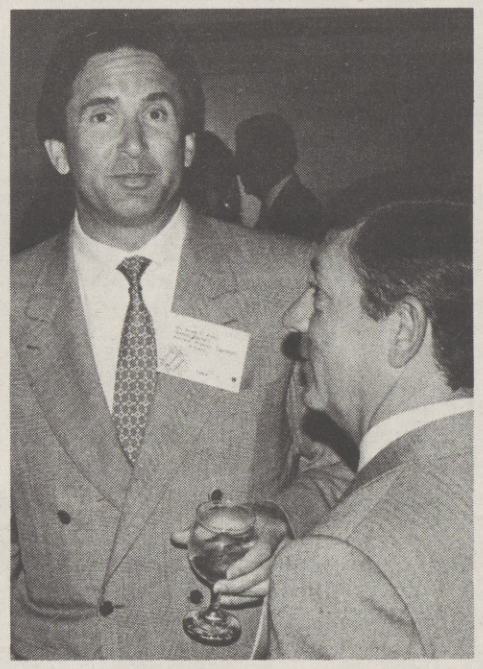
- "Continuing a Winning Tradition—Through Partnership." Walter L. Robb, senior vice president, General Electric Corporate Research & Development.
- "There is a Role for Government." Kenneth L. Gibson, director, CA Department of Commerce.
- "University-Industry Cooperation in Research." Richard V. Bergstresser, director, US Scientific Centers, IBM.
- "From Icons to Ions & Back: An Avenue with Many Lanes." Herbert L. Adams, clinical professor, radiology; Philip H. Cook, professor emeritus, radiology, Harvard.

Following the symposium at 11 a.m., the new science center will be dedicated on the "C" level of the Ambulatory Care Center. A luncheon will follow in Millberry Union.

That evening, another special event will take place. A black-tie invitational gala will be held at the Fairmont Hotel in honor of Alexander Margulis who is stepping down as chair of radiology this spring.

For further information on the symposium call x61537.





Biotech Leaders Link for Lunch

Some 50 leaders of the biotechnology industry and venture capital firms attended a luncheon at UCSF-Laurel Heights on April 18. The event was hosted by UCSF Board of Overseers member G. Kirk Raab, president and chief operating officer, Genentech (photo at left), and UCSF Foundation trustee Brook H. Byers, general partner, Kleiner, Perkins, Caufield & Byers (right). UCSF's oncogene expert J. Michael Bishop and yeast expert Ira Herskowitz reported on the full range of biomedical investigation occurring on campus, while Chancellor Krevans described our new library and how it could serve as a link between research breakthroughs and industrial development.

Classmates from Alexandria

It was 1961 when Ferial Aly (left) and Afaf Meleis (right) graduated from Egypt's University of Alexandria. They have been close colleagues for the last several years, both studying primary health care, especially women's health in developing countries. Meleis is UCSF professor, mental health, community & administrative nursing, while Aly is dean of the Higher Institute of Nursing in Alexandria. Aly is on campus through May 20 as the Leone Visiting Lecturer, serving as consultant and teaching classes in international issues in primary health care. If you would like to meet Dr. Aly, call x69032.

Academic Career Conference for Women Scientists Saturday, May 13

Women who are interested in, or already engaged in, a science career in conjunction with a learning institution are invited to an all-day UCSF conference entitled, "Women Scientists in Academic Careers," on Saturday, May 13, in Room 300 HSW.

Keynote speaker UCSF physiologist Mary Dallman will address some of the broad issues related to women in academic careers. A series of small, informal workshops on specific issues will follow, including:

- Getting on/climbing the academic ladder
- The two-career couple
- Women of color in academia
- Issues for lesbians
- Combining family and career
- Landing the right postdoc positions
- How to prepare for teaching

Conference co-sponsors are the UCSF Graduate Council, the Women's Resource Center, Academic Senate Committee on Equal Opportunity and the Affirmative Action Office. For further information call Betty Hoener at x62543 or Kathy Giacomini at x61936.

Our Latest ARCS Winners

Above are the UCSF winners of the recent Achievement Rewards for College Scientists (ARCS). During the April 19 awards luncheon the San Francisco ARCS chapter handed out 59 awards (12 to UCSF) totalling some $342,000.

Winners are (front row, left to right) Tania Chernov-Rogan, Caroline Decker and Anna Maria Pace, all from pharmacology; (back row, left to right) Susan Reilly and Barbara Calhoun, bioengineering; Kevin Beitchman, oral biology; and Erin Newman, Karen Scribner and William Chu, molecular endocrinology. Missing are Susanna Wu, School of Pharmacy; and Hobart W. Harris and Lori Kaleihoopio Hennessy, CVRI.

Millberry Union *(continued)*

way to a better-looking and better-feeling body.

Or you might want to dribble some balls in the newly refurbished gym, or play some squash or raquetball in those new courts.

And there's much, much more to come at Millberry. But first there's more construction.

Beginning the week of May 22 and lasting through most of September, the eastern section of the Union will be under major construction in order to complete a new main lobby, game area, conference rooms, two music rooms, a new free weights room and men's and women's locker rooms with saunas, plus a refurbished swimming pool.

This means that the east entrance to Millberry will be closed. For access to the new Fitness Center, take the outside parking ramp to H level, then just follow the signs. For other Millberry areas, use the west entrance.

Here's the way the closures stack up:

- The swimming pool will be closed from the middle of June to sometime in September.
- The locker rooms will be closed for 10 days, from Monday, June 12, to Wednesday, June 21. That means no locker facilities. But come June 22 there will be new locker rooms with saunas, another squash court and a new free weights room.
- No conference rooms, game area or main lobby until October.

What about a tour so you can really tell what's happening? Just call Al Minvielle at x62671, and he'll set you up. Meanwhile, *Newsbreak* will be sure to keep you abreast of all major happenings.

No, you're not looking at a café along the Champs Élysées. It's the new Millberry plaza.

Deaf Awareness Day May 18

The campus will celebrate Deaf Awareness Day on Thursday, May 18, with an information booth in the Medical Sciences lobby from 10 a.m. to 3 p.m. Our Center on Deafness will have on display books authored by UCSF faculty on deafness and mental health, several brochures, and pamphlets on the Center's trainee program for UCSF students. The day is part of California's Deaf Awareness Month.

Harris Award *(continued)*

dency in internal medicine at Harbor UCLA Medical Center.

A 1985 biology graduate of UC Santa Cruz, Edwards has served over the past few years as a research fellow in the Reproductive Endocrinology Center, directed by Robert Jaffe, and the Metabolic Research Unit, headed by Gerold Grodsky. An abstract of his work with Jaffe demonstrating that human relaxin is mitogenic has been accepted for presentation at the annual meeting of the Endocrine Society.

In addition to his medical school course work, Edwards has been an active member of the Black Student Health Alliance and the Student National Medical Association, and has worked on minority outreach and recruitment programs with the School of Medicine Admissions Office. He also holds the distinction of being a Sincler Miller Scholar.

Edwards plans to do his residency in ob/gyn at the Martin Luther King, Jr./Drew Medical Center in Los Angeles.

Each winner will receive $500 and an inscribed scroll, and their names will be engraved on a plaque on display outside of Cole Hall.

In the Department of Medicine for some 20 years, Harris was a member of the CVRI and taught in the gastroenterology service at SFGH. A vital member of the civil rights movement, he worked to extend educational opportunities to disadvantaged groups. He was one of the founders of the UCSF Black Caucus and an advisor to black medical students.

Honors & Awards

Carroll L. Estes, professor & chair, social & behaviorial sciences; director, Institute for Health & Aging: Winner of the 1989 Distinguished Scholarship Award, the Pacific Sociological Association's highest honor, for her research achievements in aging and health policy and for her book *The Aging Enterprise*.

Harold Papkoff, professor, endocrinology, ob/gyn & Hormone Research Laboratory: Second Annual A.V. Nalbandov Lecturer at the University of Illinois, Champaign-Urbana, April 25.

Bruce M. Alberts, professor & chair, biochemistry & biophysics: Appointed by Health & Human Services Secretary Louis W. Sullivan to NIH's Program Advisory Committee on the Human Genome.

William F. Ganong, professor, physiology: Elected councillor of the Society for Experimental Biology and Medicine.

Ira D. Goldfine, professor, medicine & physiology; associate chief, medicine & director, diabetes research, Harold Brunn Institute, Mount Zion: Presented with a plaque in his honor by the Diabetes Association and Endocrinology Society of the Republic of China, Taiwan, for his lectures on diabetology.

Philip R. Lee, professor, social medicine; director, Institute for Health Policy Studies: Eighth Annual Arthur Weissman Memorial Lecturer of the UC Berkeley School of Public Health. He spoke on "Physician Payment Reform: An Idea Whose Time Has Come" in Berkeley, May 4. Lee will repeat the lecture at UCSF Medicine Grand Rounds, May 18. See inside calendar for details.

Appointments

Don Lorenzo

Erik Carlsson, acting chair, radiology, as of July 1. An international expert in cardiac radiology, he is a native of Vingaker, Sweden, and a graduate of Stockholm's Karolinska Institute. He came to UCSF in 1964 as associate professor and chief of cardiovascular radiology, and senior staff member of the CVRI. He became full professor of radiology in 1968 and director of the Radiology Learning Center in 1986. Carlsson was training program director for the National Heart, Lung and Blood Institute from 1966-77 and has been on numerous site visit teams for the Institute since 1965. He was a founding member and former president of the North American Society for Cardiac Radiology and was honored in 1984 for his service to the Society. Among his other numerous honors are the 1984 Teacher of the Year Award by radiology residents and the Insignia of the Royal Order of the Northern Star by King Carl Gustav VI of Sweden. He succeeds Alexander Margulis who retires to emeritus status after 26 years as chair.

In Memoriam

Eli S. Resnikoff. A 1984 School of Medicine graduate, he was an anesthesiology resident at the time of his death and was to become assistant clinical professor on July 1. A member of the Israel Defense Forces Medical Corps from 1973-76, he graduated from UC Berkeley in medical ethics in 1980 and received his BS in human health sciences from UCSF in 1981. Resnikoff had done research into the evaluation of trauma systems and was preparing experimental work on head trauma. A trust fund on behalf of his three young children has been established by the department. Donations may be made to the Eli Resnikoff Family Fund, c/o UCSF Department of Anesthesia, Box 0648, SF, 94143.

Leela Stevens Craig, associate clinical professor, medicine. A 1932 graduate, she taught at UCSF for more than 50 years. Specializing in internal medicine and endocrinology, she also worked in the areas of nutrition and holistic medicine. An expert in thyroid and obesity, Craig was head of the Obesity Study Clinic from 1952-70. A fellow and lifetime member of the American College of Physicians, she was a 1988 winner of the American Medical Association's Recognition Award.

Terry Lane DeMoss, billing assistant for professional fee billing in Medical Group Business Services since 1986. A native of Tennessee, DeMoss was a financial counselor at Vanderbilt University Medical Center in Nashville before coming to UCSF. An accomplished musician, he sang with the gay men's choruses in Atlanta and SF, and in the San Francisco Symphony Chorus production of Beethoven's Ninth Symphony in 1988. Terry requested that donations in his honor be made to the SF AIDS Foundation, PO Box 6182, SF, 94102-6182.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Dale Borgeson, administrative assistant II, neurology.

Leon Byrd, senior word processing specialist, physical plant.

Tammy Clay, administrative assistant II, business & fiscal services.

Liwayway Deguzman, hospital clinical laboratory assistant II, laboratory medicine clinical labs, SFGH.

Scott Duggan, curriculum assistant II, psychiatry.

Cherley Evans, facilities assistant III, physical plant.

Michael Gallin, project assistant II, LPPI research.

David Gee, senior building maintenance worker, physical plant.

Elizabeth Gilligan, administrative assistant II, medicine/geriatrics.

Michael Grafton, administrative assistant I, surgery immunogenetics laboratory.

Katherine Johnson, administrative assistant II, restorative dentistry.

Kimberly Lee, assistant environmental health & safety technologist, EH&S.

Debra Loge, senior environmental health & safety technologist, EH&S.

Effie Meredith, administrative assistant III supervisor, medical anthropology/epidemiology & international health.

Joseph Molaghan, administrative nurse I supervisor, medicine/AIDS/oncology.

Eloisa Richards, administrative assistant II, transportation.

Elizabeth Terrell, billing assistant II, medical group business services.

Denise Tucker, facilities assistant III, physical plant.

Publications

Charles B. Higgins, professor, radiology; chief, magnetic resonance imaging; **Hedvig Hricak,** professor, radiology & urology; chief, uroradiology: Editors, *Magnetic Resonance Imaging of the Body* (Raven Press, NY, 1987).

Dentistry Honors Bhatnagar

Rajendra S. Bhatnagar (far right) was honored last Thursday as the School of Dentistry's Faculty Research Lecturer. Both a biochemist and stomatologist, Bhatnagar spoke on the mechanisms of collagen. With him are (left) Growth & Development Acting Chair Karin Vargervik, who chairs the School of Dentisty Faculty Council, and Dean John Greene.

Bockenstedt, Goldsmith, Tong-Starksen

Three Young T-Cell Immunologists Honored

These three young research fellows in the Division of Rheumatology and Howard Hughes Medical Institute have been honored by the American Federation for Clinical Research (AFCR) and the American College of Rheumatology (ACR) for their research on how the T-cell works in the human immune system.

Sandra Tong-Starksen, in B. Matija Peterlin's immunology laboratory, is the winner of an AFCR Trainee Award and an ACR Senior Scholar Award for her research into HIV gene expression in T-cell activation. The awards carry a stipend of $1,000 from AFCR and $1,200 from ACR.

Linda Bockenstedt, in Arthur Weiss's immunology laboratory, received an ACR Senior Scholar Award for $1,200 for her studies on the role of accessory molecules in T-lymphocyte activation.

Mark Goldsmith has received a $1,000 AFCR Trainee Award for his studies in the molecular basis of signal transduction by the T-cell antigen receptor. Formerly in Weiss's laboratory, he now is finishing both his MD and UCSF's Medical Scientist Training Program.

Two Major Lectures

Set aside the dates of Wednesday, May 10, and Friday, May 19, for two major lectures on campus.

May 10: Haile Debas, professor and chair, surgery, is the Charles A. Noble AOA Lecturer. He will discuss "Disquietudes in Modern Health Care" at 10:45 a.m. in Toland Hall.

May 19: Anne J. Davis, professor, mental health, community and administrative nursing, is the Ninth Helen Nahm Research Lecturer. She will discuss "The Moral Art of Nursing Practice: Rights and Responsibilities in the Clinical Setting" at 10 a.m. in Cole Hall.

Staff Service Award Ceremony May 17

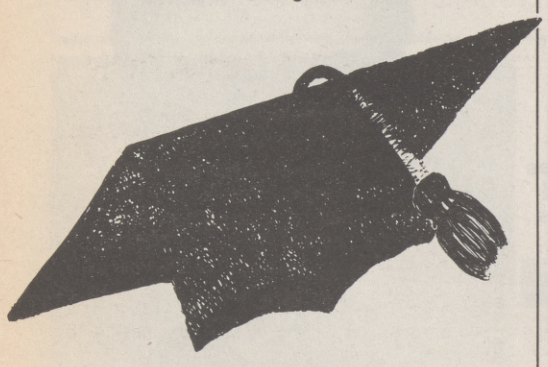
One hundred and two campus employees will be honored during the Staff Service Award Ceremony on Wednesday, May 17, from 2 to 4 p.m. in the combined lounges of Millberry Union. The awards will be presented to all those staff employees who in the past year have either reached their 25th year with UCSF (there are 19 of these people) or who have retired (83 of these). Refreshments will be served. For further information call Fred McEnroe at x65186.

Today/Tomorrow

6 Saturday

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

SURGERY GRAND ROUNDS: *Management of Liver Tumors.* Robert Warren, Surg. Toland Hall. 8:30 a.m.



MED GRADS COME HOME

School of Medicine Homecoming. For details call x61471.

- **Morning program:** *Rhapsody in Blue & Gold.* Cole Hall. 9 a.m.
- **Awards Luncheon.** MU Gym. Noon.
- **Gala Dinner Dance.** Meridien Hotel. 7:15 p.m.

LOW VISION FORUM: *Theatre for the Visually Impaired.* Cindy White, speech & communications, SF State U. Clinical Eye Research Bldg., 374 Parnassus. 11 a.m. For further information call Francis Neer, 626-5313.*

8 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $50. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

- May 8-12: Sunset district, on Irving St. between 25th & 26th Aves.
- May 15-19: Richmond district, on 7th Ave. between Geary & Clement.

OSTEOPOROSIS WEEK

National Osteoporosis Week is May 8-12. Information is available about ongoing studies of this "brittle bone" disease. Women volunteers, ages 50-70, healthy & not on medication are needed. For more information call Gail, x65125, or Vicki, x67932.*

OTOLARYNGOLOGY/HEAD & NECK SURGERY CONFERENCE: *Lesions of the Oral Cavity.* Sol Silverman, Stomat. *Dysphonia & Its Evaluation.* Krzysztof Izdebski, Oto. S 214. 8-9 a.m.

OVEREATERS ANONYMOUS MEETING: *The "How" Concept.* Speaker to be announced. N 417. Noon. Call Lia, x64251.*

LABORATORY MEDICINE GRAND ROUNDS: *AIDS Litigation: 1989.* UCSF Trial Counsel John Kern; Mary Kasher, Prof. Risk Mgmt., SF. L 535. 4-4:50 p.m.

TOXICOLOGY SEMINAR. HSE 317. 4 p.m.

URORADIOLOGY CONFERENCE. M 460. 4:30-6 p.m.

9 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. ACC. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Assessment of Inferior Alveolar Nerve Function: Somatosensory Testing.* M. Anthony Pogrel, Oral Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8-9:30 a.m.

OB/GYN & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Management of Intraamniotic & Postpartum Infections.* Daniel V. Landers, Ob/Gyn. S 1364. 9 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: John L. Kitzmiller, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

RIPA ON FLUORIDES

PEDIATRIC DENTISTRY FLUORIDE SEMINAR: *Fluorides—Professional & Self-Applied Topical Application/Dentifrice Update.* Louis W. Ripa, Ped. Dent., SUNY-Stony Brook. HSW 300. 1-5 p.m.

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Beginners welcome. MU Fitness Center's Aerobics Rm. 1:15-2:30 p.m.*

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *mRNA Splicing in Yeast.* John Abelson, Bio., Cal Tech. HSW 301. 4 p.m.

NEUROLOGY GRAND ROUNDS: *Apraxia: A Voluntary Movement Disorder.* Mary K. Floeter, Neuro. S 664. 5-6 p.m.

10 Wednesday

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Michele Hinojosa, x61662.

DERMATOLOGY CONFERENCE: *Lyme Disease: Truth & Fantasy.* Linda K. Bockenstedt, Med., SFGH & Rheumat. HSW 301. 8 a.m.

ENDOCRINE GRAND ROUNDS: *Tissue Renin-Angiotensin Systems.* William Ganong, Lange Prof. Physio. M 1486. 8:30 a.m.*

NUCLEAR MEDICINE SEMINAR. L 340. 9 a.m.

NOBLE-AOA LECTURE: DEBAS' DISQUIETUDES

Disquietudes in Modern Medicine. Haile T. Debas, chair, Surg. The Annual Charles A. Noble, Jr., Alpha Omega Alpha Lectureship. Toland Hall. 10:45 a.m.

BROWN BAG LECTURE SERIES: *Artificial Blood Substitutes: Today or Tomorrow?* C. Anthony Hunt, Pharm. & Pharm. Chem. HSW 300. Noon-1 p.m. Call x64394.*

ANATOMY SEMINAR: *The Molecular Evolution of Living & Extinct Species.* Jerold M. Lowenstein, Med. HSE 1309. Noon.

CONNECTIVE TISSUE SEMINAR: *Formyl Peptide Receptor of Human Neutrophils.* H. Daniel Perez, Med. & Russell Arthritis Ctr. N 721. Noon.

MEDICINE'S FRONTIERS

NEW FRONTIERS IN MEDICINE: *UCSF's Role in the Community.* Chancellor Julius Krevans. First in a series of five weekly lectures by UCSF faculty, followed by the Jewish perspective on the day's topic by Rabbi Robert Kirschner. Co-sponsored by UCSF & Congregation Emanu-El. At Temple Emanu-El, 2 Lake St. Noon. For further information call Judy Newman, 751-2535.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

VASCULAR SURGERY GRAND ROUNDS. 7 Long Solarium. 4-5:30 p.m.

PHYSIOLOGY-PHARMACOLOGY-CELL BIOLOGY-ENDOCRINOLOGY SEMINAR: *Transcription Control & Nuclear Oncogenes in Human Cells.* Robert Kingston, Molec. Bio., Harvard. HSW 300. 4 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *FNA of Lymph Nodes.* Kent Nowels, Path. HSW 508. 5:30-6:15 p.m.

11 Thursday

MEDICINE GRAND ROUNDS: *AFCR Summaries.* Harlan Ives, Peter L. Lee & Elliott Sigal, all Med. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Ocular Complications of C-C Fistula Embolization.* Van V. Halbach, Radiol. & Neurosurg. Case presentations: *Oncology.* S 214. 8:15-10 a.m.

PEDIATRICS GRAND ROUNDS: *Water Intoxication in Children.* Byron Aoki, Ped. ICU, Children's Hosp., Oakland. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

***Open to the public.**

OCCUPATIONAL & ENVIRONMENTAL GRAND ROUNDS: *Biomarkers of Chemical Exposure.* Martyn Smith, Toxicol., UCB. SFGH Bldg. 30, 5th fl. 9:15-10:45 a.m.

PRIMARY CARE LECTURE SERIES: *Failure to Thrive in Old Age: The "Dwindles."* Edmund Lonergan, Med. *Occupational Medicine.* Joseph LaDou, Med. & Occup. Med. A 455. 10 a.m.-noon.

CHAUNCEY LEAKE DAY

Honoring UCSF's late poet, pharmacologist & medical historian Chauncey D. Leake.

- **Recycle Relay Race.** Millberry Union to Saunders Court. Noon.
- **Picnic.** Lunch, bake sale & plant sale with music by the UCSF Marching Band. Includes EMPACT! raffle drawing. Saunders Court. Noon.
- **CED Celebrates.** Picnic lunch, plant sale, beautification project dedication & special telephone hook-up to EMPACT! raffle. Hartsook Rm. & outdoor plaza. Noon.
- **Leake Lecture:** *Early Hematolymphoid Maturation in Mouse & Man.* Irving L. Weissman, Path., Stanford. Cole Hall. 3-4:30 p.m.

UCSF/MOUNT ZION GERIATRIC GRAND ROUNDS: *Update on Alzheimer's Disease.* Jay Luxenberg, Geriat. Herbst Hall, Mt. Zion. Noon.

LABORATORY OF RADIOBIOLOGY & ENVIRONMENTAL HEALTH SEMINAR: *Cancer Risk of Ataxia-Telegiectasia Heterozygotes: Newest Data.* Michael Swift, U North Carolina. LR 213. Noon.

ISSUES IN LESBIAN & GAY HEALTH: *Anti-Gay Violence.* Jill Tregor, Community United Against Violence. S 214. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A222. 6 p.m.*

12 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Role of Surgery in Lung Cancer.* Donald J. Magilligan, Surg. L 34. 8 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Three-Dimensional Solution Structure of N-Linked Oligosaccharides: Experimental Approaches & Biological Ramifications.* Dale Cumming, Carbo. Chem., Genetics Inst., Andover, MA. S 1364. 11 a.m.

ORAL BIOLOGY 220/TMJ PATHOPHYSIOLOGY SEMINAR: *Studies on the Molecular Mechanism of Muscle Fatigue.* Roger Cook, Biophys. & CVRI. C 130. Noon-1 p.m.

PATHS OF HEALING & WHOLENESS SEMINAR: *How to Remember 20 Medical Terms in Less Than Two Minutes, Using Memory Techniques that Can Save You Time & Energy.* Joan Minninger. N 517. Noon.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

COLE HALL CINEMA: *Working Girl.* Enterprising secretary Melanie Griffiths climbs over Sigourney Weaver on her way up the corporate ladder. Children under 14 $2; students, seniors & MU members $2.50; general $3. Cole Hall. 6:30 & 9 p.m.*

ALTOSAXUALS AT LAUREL HEIGHTS

Richie Cole & the Alto Madness Quintet. UCSF Arts & Lectures "Just About All Jazz" concert rescheduled from Feb. 3. Tickets $3 children under 14; $5 UCSF students; $7 seniors, MU members & non-UCSF students, $8 UCSF faculty & staff; $10 general. (Your Feb. 3 ticket is still good or call x62542 for refund.) UCSF-Laurel Heights Aud. 8 p.m. Free parking. Call x62035 for ticket information, x62542 for concert information.*

13 Saturday

ORTHOPEDIC GRAND ROUNDS. Cole Hall. 8-9 a.m.

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

SURGERY GRAND ROUNDS: *Before & After Breast Cancer.* William Goodson, Surg. Cole Hall. 8:30 a.m.

WOMEN SCIENTISTS CAREER CONFERENCE

Women Scientists in Academic Careers Conference. HSW 300. 9:30 a.m.-4 p.m. Call Betty Hoener, x62543, or Kathy Giacomini, x61936. See story on page 2.*

MAGNETIC RESONANCE CENTER DEDICATION

UCSF's new Magnetic Resonance Science Center's dedication. Scientific symposium. Cole Hall. 9 a.m. Dedication ceremony. C Level, ACC. 11 a.m. Luncheon. MU. 12:15 p.m. (See page 2 for details.)

PHARMACY REUNION

The 107th Annual Reunion Banquet of the School of Pharmacy. Includes presentation of the 1989 Distinguished Alumnus Award to Phil Hansten '68. St. Francis Hotel. 6 p.m. For more information call x64723.

15 Monday

TOY & BOOK DRIVE MAY 15-26

Book & toy drive to benefit local childcare & after school centers. Sponsored by Staff Advisory Committee. Put your donations in bins at convenient locations all over campus. For further information call x62119.*

OTOLARYNGOLOGY CONFERENCE: *Tracheal Reconstruction.* Alfred Delorimer, Ped. Surg. *Augmentation Rhinoplasty.* Thomas Wildes, Oto. S 214. 8-10 a.m.

May 6-19, 1989

OVEREATERS ANONYMOUS MEETING: *The "How" Concept.* Speaker to be announced. N 417. Noon. Call Lia, x64251.*

BRAIN TUMOR RESEARCH CENTER SEMINAR: *Molecular & Biological Properties of ADPRT: Biological Regulation of Malignant Growth?* Ernest Kun, Pharmacol. S 214. Noon.

TOXICOLOGY SEMINAR: *Human Toxicology of Nicotine.* Neal Benowitz, Clin. Pharmacol. HSE 317. Noon.

LABORATORY MEDICINE GRAND ROUNDS: *Science, Statistics & Smoking.* Lewis B. Sheiner, Lab. Med. L 535. 4-4:50 p.m.

16 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Physical Therapy & TMJ Disorders.* Arlen Van Dyke, Oral Surgeon, Walnut Creek. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8-9:30 a.m.

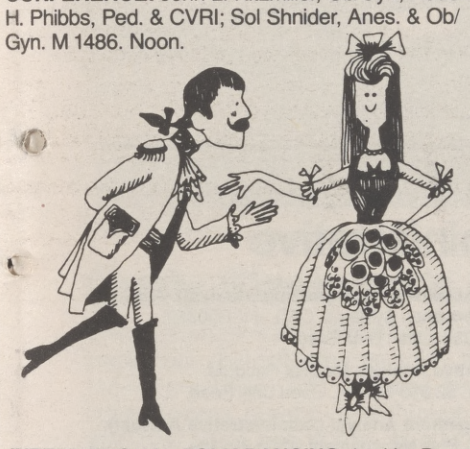
NEW EMPLOYEE ORIENTATION: *UCSF Policy, Procedures & Benefits.* Presented every other Tues. All new employees are urged to attend. S 214. 8:30 a.m.-noon. To register call Leonard Florendo, x61073. Medical Center employees call Gemma Reiser, x64846.

OB/GYN GRAND ROUNDS: *Rational Approaches to Infertility.* Robert H. Glass, Ob/Gyn. S 1364. 9 a.m.

PSYCHIATRY GRAND ROUNDS: *Suicide: Current Perspectives.* Jerome Motto, Psychr. LPPI Aud. 11 a.m.-noon.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: John L. Kitzmiller, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.



INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Beginners welcome. MU Fitness Center Aerobics Rm. 1:15-2:30 p.m.*

WELCOME DEAN JANE

Chancellor Krevans hosts a campus-wide reception to welcome new School of Nursing Dean Jane Norbeck. MU lounges. 4-6 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *The Mechanism of Phage MU Transposition & Retroviral DNA Integration.* Kiyoshi Mizuuchi, Molec. Bio., NIH. HSW 301. 4 p.m.

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEURORADIOLOGY/NEUROSURGERY GRAND ROUNDS. HSW 303. 4:30-6 p.m.

NEUROLOGY GRAND ROUNDS: *Neurology Update: Neurotrophic Molecules in 1989.* David M. Holtzman, Neuro. S 664. 5-6 p.m.

VOLUNTEER ORIENTATION: To acquaint new and prospective volunteers with opportunities available in the Medical Center. M 169. 6-8 p.m. Call x64372.*

17 Wednesday

PLASTIC SURGERY GRAND ROUNDS: *Hand Infections.* Robert Markison, Hand Surg., SFGH. Toland Hall. 7 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Michele Hinojosa, x61662.

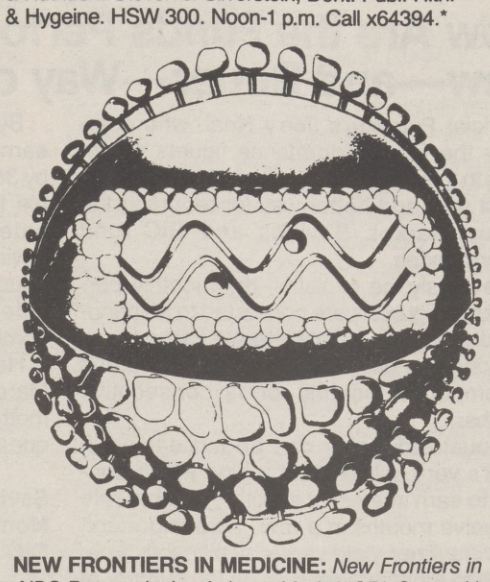
DERMATOLOGY CONFERENCE: *HIV in Dermatologic Surgery.* Roy C. Grekin, Derm. HSW 301. 8 a.m.

ENDOCRINE GRAND ROUNDS: *Was Albright Right About Hypercalcemia in Malignancy? Studies of a PTH-like Protein in Malignancy & in Health.* Gordon J. Strewler, Med. M 1486. 8:30 a.m.

NUCLEAR MEDICINE SEMINAR. L 340. 9 a.m.

AROG MEETING: *UCSF Update.* Chancellor Krevans addresses this month's meeting hosted by SFGH business officers. Carr Aud., SFGH. 11 a.m.-12:30 p.m.

BROWN BAG LECTURE SERIES: *Dental Health & Nutrition.* Steven J. Silverstein, Dent. Publ. Hlth. & Hygeine. HSW 300. Noon-1 p.m. Call x64394.*



NEW FRONTIERS IN MEDICINE: *New Frontiers in AIDS Research.* Jay A. Levy, Med. & CRI. Second in a series of five weekly lectures by UCSF faculty followed by the Jewish perspective on the day's topic by Rabbi Robert Kirschner. Cosponsored by UCSF & Congregation Emanu-El. At Temple Emanu-El, 2 Lake St. Noon. For further information call Judy Newman, 751-2535.*

CONNECTIVE TISSUE SEMINAR: *Biologic Effects of Connective Tissue in Liver.* Montgomery Bissell, Med. & UCSF Liver Ctr. N 721. Noon.

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

STAFF SERVICE AWARDS

Annual Staff Service Award Ceremony honors retirees & those with 25 years of University service. MU lounges. 2-4 p.m. Call Fred McEnroe, x65186. For details see story page 3.

PHYSIOLOGY/ENDOCRINOLOGY/CELL BIOLOGY/PHARMACOLOGY SEMINAR: Ann Hubbard, Physio., Johns Hopkins. HSW 300. 4 p.m.

VASCULAR SURGERY GRAND ROUNDS. 7 Long Solarium. 4-5:30 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

UROPATHOLOGY CONFERENCE: *Inflammatory Lesions of the Genito-urinary Tract.* Matthew Zarka, Path. M 460. 4:30-6 p.m.

PATHOLOGY GRAND ROUNDS: *Current Thoughts About Computerized Pathology Information Systems.* Franklin Elevitch, Path., El Camino Hosp. HSW 508. 5:30-6:15 p.m.

18 Thursday

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

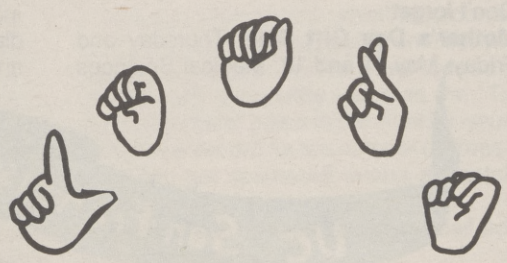
MEDICINE GRAND ROUNDS: *Physician Payment Reform: An Idea Whose Time Has Come.* Philip R. Lee, Social Med., IHPS & chair, Physician Payment Review Commission. Toland Hall. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Apnea Monitors & the Prevention of SIDS.* Roberta A. Ballard, Clin. Ped. & Newborn Serv., Mt. Zion. S 664. 8:30-9:30 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *YAG & Tuneable Dye Lasers for Glaucoma Surgery.* Michael Drake, Oph. Preceded by case presentations: *Oculoplastics.* S 214. 8:15-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Superfund & ATSDR—The Agency For Toxic Substances & Disease Registry.* George L. Carlo, Hlth. & Env. Sci. Corp. M 989. 9-10 a.m.



DEAF AWARENESS DAY

UCSF Center on Deafness information & exhibits in Medical Sciences lobby. 10 a.m.-3 p.m. (See page 2 for details.)*

PRIMARY CARE LECTURE SERIES: *Ambulatory Assessment & Management of Hypertension.* Robert Brody, Med. A 455. 10 a.m.-noon.

JOYS OF PARENTING

Recapturing the Joys of Parenting. Daphne Muse, parent & editor of *Children's Advocate*. Sponsored by UCSF Women's Resource Center. Toland Hall. Noon.*

LESBIAN & GAY HEALTH ISSUES: *Substance Abuse in the Gay Community.* Rosamaria Zayas, Lesbian Serv. Proj.; Frank Davis, 18th St. Serv. S 214. Noon.*

TOXINS & THE WORKPLACE

An open discussion with Vice Chancellor Bruce Spaulding & Asst. Vice Chancellor J. LeRoy Balzer. HSW 302. Noon. (For details see page 1.)

NEURO-ONCOLOGY TUMOR BOARD. L 34. 12:30-1:30 p.m.

CLINICAL ONCOLOGY CONFERENCE. M 1296. 2 p.m.

PROCTOR FOUNDATION SEMINAR. S 318. 3 p.m.

DEVELOPMENT & TRAINING

For further information call x64032.

Practicing Stress Management. Tues., May 9. 8:30 a.m.-noon. $5.

Grants Training Program. Wed., May 10. 1-4 p.m. $5.

Basic Grammer for Writing. Mon. & Wed., May 15-24. 10 a.m.-noon. $20.

Contracts & Grants Workshop. Tues., May 16. 1-4 p.m. $5.

CONTINUING EDUCATION

MEDICINE

Bay Area Seminars in Cytopathology. HSW 300. May 11 & June 9. Call x64251.

Fine Needle Aspiration Tutorial VIII. UCSF. May 27. Call x61701.

Advances in Internal Medicine. Hyatt Regency, SF. June 12-16, 26-30. At UCSF June 26-30. Call x65208.

Gastroenterology: Recent Developments in Theory & Practice. Portman Hotel, SF. June 14-16. Call x65208.

Family Practice Board Review Course. Holiday Inn-Union Square, SF. July 10-13. Call x61482.

DENTISTRY

Held in room C 701, unless otherwise noted. For further information call x61101.

Local Anesthesia, Soft Tissue Curettage, Nitrous Oxide Analgesia for Dental Hygienists. Apr. 28-30, May 6-7.

Non-Prescription Dental Products & Devices. May 6.

Revitalizing Ceramic Restoration. May 12.

Use of Ultrasonic Scaler by the Registered Dental Assistant to Remove Excess Cement. May 15 & 22. C 604.

Master the Art & Science of Crown & Bridge Temporization. May 19-20.

Dental Team Management Priorities for the 1990s. June 3.

Update of Restorative Dental Materials. June 10.

Advances in Materials & Concepts to Restore the Devastated Dentition. July 8.

HIV+ SUPPORT GROUPS

Anonymous groups for people who have tested HIV positive but have not developed symptoms of AIDS or ARC. Sponsored by UCSF AIDS Health Project.

Weekly Group for UCSF Employees. Tuesdays at noon. Call facilitators Marty Kortebein or Bruce Flynn, x62621.

Positives Being Positive. Groups for the community meet regularly. Call x63902.*

WOMEN'S PROGRAMS

Sponsored by UCSF Women's Resource Center unless otherwise noted. Call x65836.

SUPPORT GROUPS

Ongoing noontime drop-in support groups for women working or studying at UCSF.

General Women's Group for Growth & Support. C 213. Mon., May 8 & every other Mon.

Women of Size Support Group. N 527. Mon., May 8 & every other Mon.

Jewish Women's Support Group. A 326. Tues., May 9 & every other Tues.

Lesbian Lunch Group. C 213. First & third Mon. of each month.

Latin Women Coalition. C 209. Last Wed. of each month.

Circle of Sisters. Black women's group. C 213. Every Fri.

Working Mothers Support Group. For mothers at UCSF with children 18 months or younger. Every Tues. in L 192. Sponsored by Faculty, Staff & Student Assistance Program. For more information call Nicole Child, x68900 or Emanuelle Gomez, x68279.

WORKSHOPS

For campus women & the general public. Pre-registration required. C 130. Fees on sliding scale.*

Speak Up, Woman! Communications Skills. Sat., May 20. 11 a.m.-2 p.m.

ESL CLASS

Pronunciation of English as a Second Language. Improving pronunciation skills in English. Sponsored by UCSF Speech & Audiology Clinic. Wed., May 17-Aug. 16. $650. For registration information call Alicia Henderson, x65101.*

TEAR GAS CLASSES

Tear gas certification by UCSF Police Dept. Personal Safety Prog. Personnel Conference Rm., 1350 7th Ave. Sat., June 17 & Aug. 19. 9 a.m.-noon. Wed., May 24 & July 19. 6-9 p.m. $12. Pre-registration required. Call x65683.*

CPR CLASSES

UCSF CPR Center's 3-4 hour course in basic cardiopulmonary resuscitation. Sat., May 13; Thurs., May 25. N 229. 9 a.m. $20 & $5 for one additional household member. For information & registration call x61817.*

Benefits/Personnel

HIV+ Support Group Marks One Year

Employee Rehab's Bruce Flynn called to say that this April marked the one-year anniversary of the support group for UCSF employees who have tested HIV+.

The group, which is facilitated through the Employee Rehabilitation Service, meets on campus every Tuesday at noon for one hour. Occasional evening get-togethers allow participants to explore issues in greater depth.

Bruce says that participants have observed that it is very helpful being part of a support group in which members have both work affiliation and HIV+ status in common:

"It provides us with tools to deal with our emotions and resources for medical and social information."

"It helps cool down the craziness of work."

"It helps give us confidence so that we're not so uptight about our HIV+ status."

"The information we share isn't AIDS 101. It's useful information to us."

Although the group has a core membership of a half-dozen regulars, drop-ins or occasional visitors also are encouraged. The group continues to welcome new members and is open to any UCSF employee who has tested HIV+. If you're interested in joining, contact group facilitators Bruce Flynn or Marty Kortebein in Employee Rehab, x62621. If you'd be interested in a similar group at a different time, also call x62621.

MAP and A&PS: New Merit Control Points and Salary Grade Ranges

The 1989-90 merit control figures for MAP and A&PS have been set at 6% for eligible MAP Program members and 6.2% for eligible A&PS Program members, based on projected state funding.

Anticipating delayed state funding, merit increases for both programs again will be subject to a split payment schedule.

Funding will be available July 1, 1989 for 33 1/3% of the 1989-90 merit increases. Payment of the remaining amount will begin effective January 1, 1990.

Salary grade ranges for both MAP and A&PS programs will be increased by 6%, effective July 1, 1989.

If you're interested in further details, check with your department's benefits/personnel rep or supervisor. He or she should have the memo from the Personnel Department to supervisors and managers dated April 19. The memo provides examples of how split payment will work once July 1, 1989 MAP and A&PS merits have been processed.

How Are the Funds Performing? Here's a New—and Better—Way of Telling You

Financial Planning's Jerry Neal, who computes the fund performance figures we include in this column each issue, has come up with a new and better way for reporting the Money Market, Savings and GIC fund performances.

Previously, he explains, the monthly performance figures were converted to an annualized yield. The actual interest earned by a fund during a calendar month was assumed to compound monthly for 12 consecutive months.

Annualized yields can be misleading in that it's very unlikely that a fund would continue to earn interest at exactly the same rate for twelve months in a row. More important, the annualized yield varies significantly from month to month depending on the number of days in the month.

Therefore, the yields on these three interest-earning funds now will be reported on a "current annual rate" basis.

By this method, the average daily interest earned for the reported period is multiplied by 365 days. The resulting figure is comparable to the annual rates reported on certificates of deposit, money market funds, savings accounts and interest checking accounts. This method, says Jerry, should provide a more accurate and meaningful comparison with other similar investments.

Here are the fund performances (as of March 31), computed by way of the new method. Be sure to call x69256 if you have questions.

	Monthly Factor	Current Rate
Savings	.0068	8.07
Money Market	.0080	9.43
GIC	.0075	8.87

	Unit Value	1-Month Change	2-Month Change
Bond	33.63	1.0	6.1
Equity	54.15	1.2	13.2

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and on the second floor of Moffitt Hospital.

Key to union codes:

Change Coordinator (Programmer Analyst). Administrative Information Systems, CED. #V-H50859. $2,567-$3,850. Open Until Filled.

Administrative Analyst. Medical Records. #H-A68401. $2,333-$3,500. Open Until Filled.

Risk Management Analyst (Administrative Analyst). Insurance & Risk Management, 1350-9th Ave. #V-H43292. $2,333-$3,500. Open Until Filled.

EMPACT!

Alaska Cruise Raffle Drawing is Next Thursday!

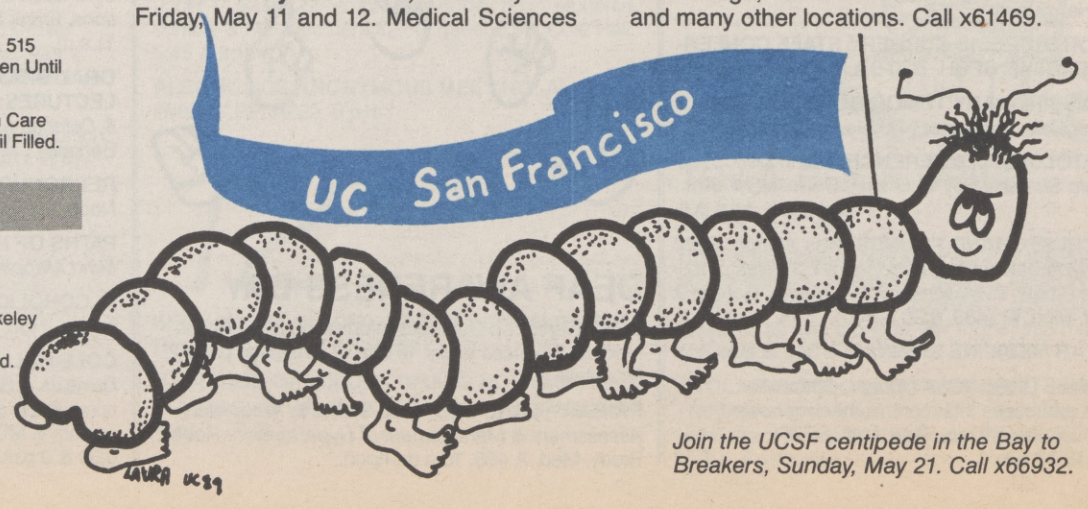
Next Thursday, May 11, at noon in Saunders Court is the drawing for the Alaska cruise, the catered party on the yacht, the TV, the VCR, the bike, the many gift certificates for dinners, lunches, hotels and the skads of other prizes in the EMPACT! raffle.

The great thing about this raffle is that not only are the prizes extraordinary, but so are your chances of winning one. And tickets are cheap—only $1 each. Buy yours before next Thursday either from one of the many tickets sellers running around campus, at the MU Central Desk, or call EMPACT!, x66932.

Where will the proceeds go? To help finance EMPACT!, your employee activities program.

Don't forget:

- **Mother's Day Gift Sale,** Thursday and Friday, May 11 and 12. Medical Sciences lobby, 11 a.m. to 2 p.m. both days.
- **Giants vs. Philadelphia, Sunday, May 28.** Get your tickets at the MU Central Desk.
- **Bowling team forming.** Call Shirley Hamilton, x63860, if you're interested in joining a summer bowling league. Every Thursday evening at Japantown Bowl; begins June 1.
- **Sunset cruises.** Wind down after the week with a Friday evening cruise around the Bay. Two dates: May 12 and June 9. Call Outdoors Unlimited, x61469.
- **Discovery Day Camp** is back this summer and better than ever. The two-week sessions take children ages 7 to 12 on nature and science excursions to some of the most exciting places in the Bay Area—including Moss Beach tidepools, Miwok Indian Village, the Marine Mammal Center and many other locations. Call x61469.



Join the UCSF centipede in the Bay to Breakers, Sunday, May 21. Call x66932.

Medsounds Continued

How to Start a Conversation with a Nurse

If you're interested in getting to know a nurse—but you don't know how to start the conversation without a gimmick or two—you might try making use of some of the facts and figures supplied to *Medsounds* by Cindy Barton on the occasion of National Nurses Day on Saturday, May 6.

You could say for instance:

"Wow, I can't believe that there are 1,429 nurses employed here at the Medical Center, including per diems and student nursing aides."

Or: "I was so surprised to learn there are 1,101 inpatient nurses, 95 OR nurses, 40 post anesthesia, 89 ACC and 104 LPPI nurses here at the Medical Center."

Or how about: "Isn't it amazing that the RNs employed here represent 43 different states and 18 foreign countries in terms of where they got their education."

Any one of these is guaranteed to gain immediate entry into an engaging, lively and witty conversation.

It also may help to know what the various steps mean, such as "Clinical Nurse II." For clinical nurses, the levels are broken down into I through V, with steps I through III representing basic nursing preparation—with advancement based on performance, length of stay and additional education. A step IV nurse is a clinical nurse specialist and a step V is a clinical nurse specialist with more administrative responsibilities. Steps IV and V both require master's degrees.

At the administrative level, there also are five steps: An assistant head nurse is an "AN I"; head nurses are AN IIs or IIIs; and assistant directors are AN IVs or Vs.

There are other kinds of nurses and many other associated facts and figures. Maybe you can pick up a bit more information once you get your conversation going.

Aurora Santos, Anita Wilson, Denise Codwell: Minority Nurse Education Fund Testimonials

You've heard about the Minority Nurse Education Fund that provides money for minority employees within the Department of Nursing (1) for non-nurses who want to go into nursing, or (2) for nurses who want to further their education.

How would you like to meet a couple of success stories resulting from this program?

Aurora Santos, far left, a clinical nurse III on 7 CVS, received funds to complete a postgraduate cardiovascular nursing course at Stanford—and raised her status a step, from clinical nurse II to III.

Next to Aurora is Anita Wilson, a clinical nurse II on 8 NE. Anita was originally licensed in Peru, and after moving to the US, worked several years in non-nursing departments here at the Medical Center. She used her funds to take a brush-up course that enabled her to pass the nursing boards here. And now she's back in nursing again.

To the far right is Denise Codwell, one of the most recent beneficiaries. Denise worked in the Office of Public Service Programs for several years, and now is office manager in Nursing Education. She's using her funds to go back to school to become a nurse.

In the background are three great champions of affirmative action: Nursing director Helen Ripple; Joe Mattox, director of the Faculty, Staff and Student Assistance Program; and Mike Adams, director of the campus Affirmative Action Office, which appropriates the funds for the nursing program.

The Minority Nurse Education Fund program was instituted in 1984. Including Anita, Aurora and Denise, there have been 33 participants to date.

Left to right: Emily's daughter Marcella, 7 Long head nurse Jennifer Dickman, Emily and nurse Ed Schweitzer.

Emily Slesinger's Heartfelt Return to 7 L

Emily Slesinger's acquaintance with 7 Long began last year following an aortic valve replacement. This year she was back with complications, but she came through okay. In fact, now she's feeling fine, as everyone on 7 Long witnessed last week.

Emily and her daughter Marcella Sleep arrived on the unit, their arms full of pastries for the whole staff. They also brought gifts of crystal from Emily's native Czechoslovakia to present to her physicians.

These gifts were accompanied by an extraordinary card: A big heart-shaped poster filled with photos of Emily and the 7 Long staff. Marcella took the pictures during the two hospital stays, then arranged them on the card to show the stages of her mother's recovery. Should you be strolling by 7 Long, take a look: It's hanging near the nurses station.

Clinical Nurses: How to Get a Nursing Research Grant

The Department of Nursing Education is sponsoring a workshop to help get you started on an idea that can turn into a proposal for one of this year's Nursing Research Grants allocated by the Medical Center.

All Medical Center nursing personnel are invited to attend the workshop on Monday, May 22, from 8:30 a.m. to 4 p.m. in the Millberry Union residence lounge. Workshop topics will include:

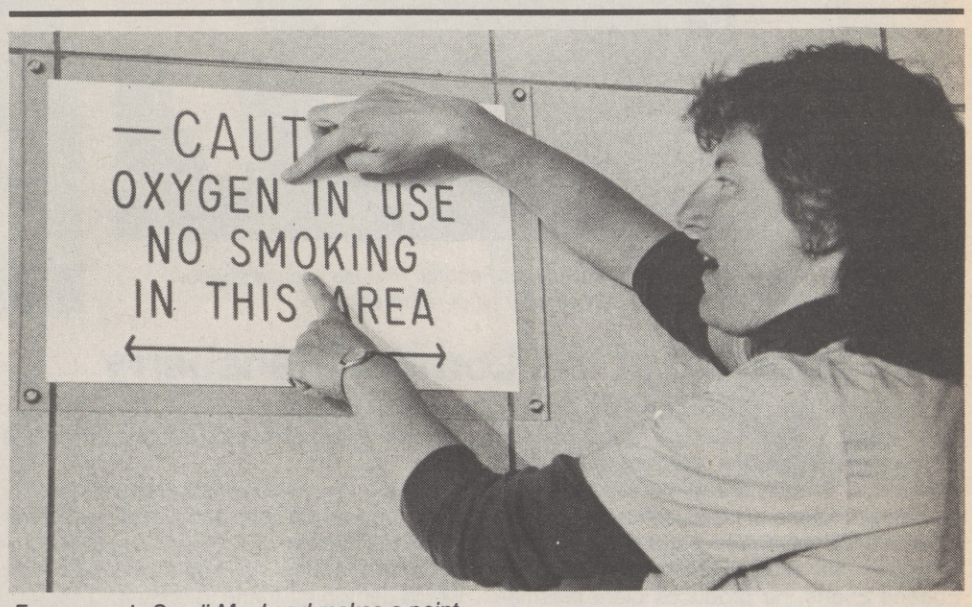
- Defining a researchable question
- How to critique published nursing research
- How to find existing tools for data collection
- Ways to find funding and reduce the "research hassle"

For further information or to register, call Nursing Education, x62993.

Construction Alert: Cramped Cafeteria Conditions Coming

Before the first stage of the Moffitt cafeteria renovation is complete in July, there will be a couple of developments affecting food service operations:

- Around May 6 most of the pantry workspace and storage area will be closed off, which will curtail cold food production somewhat. Some of the less popular items will disappear from the menu for awhile.
- Around June 5, any remaining pantry and storage space will be closed off, plus the cafeteria workers' entrance. This means *everybody*—workers and customers—will be entering and exiting through one door. The cashiering stations also will be altered and water stations, etc., changed somewhat. Conditions may be a bit confusing and definitely cramped, but remember, it's only temporary.
- Come July, everything will be back to seminormal, when the newly renovated San Francisco Room opens up and the Golden Gate Room closes for the final stage of the renovation project. The entire renovation is scheduled to be completed by the end of the year.



Emergency's Sandi MacLeod makes a point.

No Smoking: Emergency or 6th Floor Decks

Bill Kerr's recent memo to department managers asks everyone for cooperation and support in complying with this mandate: Do not smoke in the area outside the Emergency Department on the first floor of Long Hospital or the sixth floor deck of Moffitt Hospital.

"Smoking in these areas is a fire hazard and poses a real danger," he says. "I'm sorry if this is an inconvenience, but compliance is absolutely essential for the safety of staff, patients and visitors." To remind people to refrain from smoking in these locations, multiple language "No Smoking" signs have been ordered to replace the current signs.

"Overall, I am very pleased with the cooperation of the staff in providing a smoke-free environment since the policy went into effect in June of last year," he acknowledges. We just need to take care of these two problem areas.

"Constructive Comments" Continues to be a Well of Information

Hopefully, you take a look at the flier called "Constructive Comments" when it reaches your department. It's your one-stop news source for finding out exactly what's going on in the way of construction in the Medical Center—and what to watch out for.

A few of the things you learned in the flier dated April 23 to May 7 included:

- The south corridor of 8 Moffitt will be closed to all traffic through Monday, May 15, to complete the remodeling.
- The critical care unit renovations are in full swing—drilling continues on Moffitt 9 and 10 and sheetrocking on 9 begins May 15.
- August 14th is the projected opening date for 15 Long Obstetrics.
- CED departments are currently moving into their renovated areas. The last of the moves will be Hospital Accounting, May 20.

The bi-weekly report, which also contains a list of smaller projects going on all over the Medical Center, is concise, easy-to-read and occasionally even witty (such as the "Thou Shalt Not Flush" piece in the April 23 issue—on the new record for the number of times the plumbers got splattered during a wasteline shutdown period).

If you're not on the mailing list, call editor Rick Crane, x64073.

"Spend a Day" Reception May 12

All the participants in this year's "Spend a Day" program are invited to a wrap-up party on Friday, May 12. Time: 2 to 4 p.m. Place: Park Room. Don't forget.

Best in the US *(continued)*

graphs to all the technological areas in which we are regional, national or international leaders. Then it goes on to say, "But more than technology, it is the quality of the staff, both physicians and nurses, that is a major reason UCSF is considered one of the best medical facilities in the country. Every national survey published in the last decade has listed UCSF physicians as among 'the best.' A recent survey that asked department heads and chiefs of clinical services throughout the country to identify the 120 physicians 'outstanding in the US,' 10 of the 120 names were at UCSF.'"

Look Here, for Art's Sake

Radiation Oncology's Elisa Bartl and William Wara

Now Showing in the Radiation Oncology Department

If you pay a visit to Radiation Oncology on the ground floor of Long Hospital, you'll notice a series of large, colorful paintings of flowers and butterflies hanging in the hallways.

If you take a second look, you'll notice that each of these large pieces is made up of smaller sections. If you put all the large pieces together, you'd end up with the giant mural that you see in the photograph above, to the right.

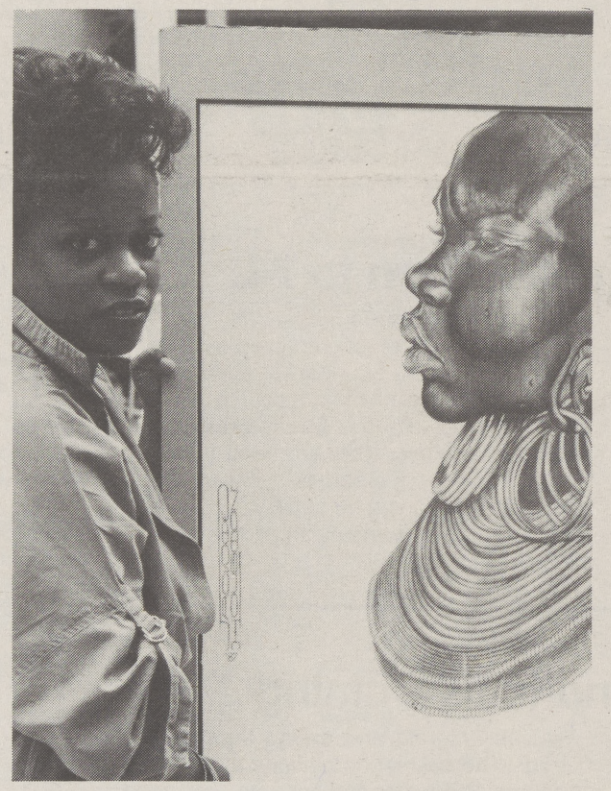
The mural was a gift to Radiation Oncology from the family of a young patient, Whitney Snow. Here's the story, as told by Whitney's primary nurse, Elisa Bartl:

John Feight is an Atlanta-based artist who established the Foundation for Hospital Art. Generally, what happens is that someone will sponsor him to do an artpiece in the name of a hospital patient. A theme is chosen, Feight draws the outline, and then actually brings the project on location to the hospital and lets the patient, friends, family, fellow patients, nurses and whoever else wants to participate in the painting.

In Whitney's case, since she was not staying in the hospital, they completed the project in the Snow's back yard, and then presented it to the department when it was finished. The project was underwritten by First Interstate Bank, where Whitney's father is employed—and several bank employees also participated in the painting. When they finished their mural, all the participants—including little Whitney—signed their names in the hearts in the section pictured above to the left.

Biomed's Paul Tevlin and Richard Fechter. (Please excuse shadow of light fixture running across top half of plasmagraph.)

Now Showing at Koncepts Gallery



You probably recognize Environmental Services employee Jackie Houston's work. Her drawings and paintings are featured in the Auxiliary's display cases several times a year. Her work also has been featured in the Sausalito Art Festival, in SF State's Black History Month exhibit, and at the Off the Wall Gallery on Haight Street, where two of her prints can be purchased.

Right now you can see her work at Koncepts Gallery in Oakland through the end of May. You may want to time your visit for Sunday, May 7, between 2 and 5 p.m., when there will be a reception for the artist. Koncepts is located at 480-3rd Street.

Jackie's work tends toward an African motif, especially tribal themes. Sometimes she works from photographs, but often the ideas come directly from her head. A single mother of two young children, she does most of her painting late at night after the kids are in bed, or she gets up at 4:30 a.m. and gets in an hour of painting before it's time to get ready for school and work. Someday she'd like to be a full-time artist. But getting to that point is not easy, she says, especially since she's better at painting than promoting. Meanwhile, she'll just keep doing her artwork—and keep hoping the opportunities roll in.

Now Showing at the Lorraine Hansberry

Recently we ran an article on Biomedical Engineering's Rich Fechter, when he became manager of that department. If you remember, he said one of his hobbies was inventing, and one of his inventions is a technique called "plasmatography." Along with colleague Paul Tevlin and local photographer Eugene Evans, he produces giant plasmagraphs (they invented the name, too).

At the time of the last article, they were busy getting ready for their first exhibition, and Rich promised to call when the show went up. Okay, it's up—in the lobby of the Lorraine Hansberry Theater on Sutter Street. You can stop by anytime through the end of June.

In the handout the artists prepared for visitors, they made sure they explained their "new and hazardous art form" in such a complicated manner, no would-be plagiarizer would get too far trying to copy it.

Suffice it to say that the plasmagraphs are huge, vividly beautiful pieces that add to this publication's conviction that the fellows in Biomed are among the Med Center's most valuable natural resources.

UCSF Medical Center One of Best in US

Once again, the Medical Center at UCSF is counted among the top medical institutions in the nation in the latest edition of *The Best Hospitals in America*, from Avon Books. Authors Linda Sunshine and John Wright researched government sources and professional publications, consulted with physicians and professional organizations and interviewed officials at more than 150 hospitals in gathering their data.

The chapter on UCSF devotes many para-

(continued on page 7)

Artists: The Auxiliary Wants Your Work

The Medical Center Auxiliary is planning a one-day benefit art sale, to take place sometime later this year. What they'd really like to feature is artwork produced by members of the UCSF community. These would be donations, with the proceeds benefitting the Auxiliary's work in the Med Center. This is not a call for immediate response—only a notice to get you thinking. Watch for more information coming up. Questions, call x64906.

Now Showing in the Pipe Room

Last time you encountered the Med Center paint shop's Johann Wimmleitner in this publication, it was during the holiday door decorating contest. He had painted the pipe in the paint shop with a winter scene. Now that spring has replaced winter, so has Johann replaced the the wintry picture on the pipe with a spring scene.

A native of Austria, Johann attended art schools in both Europe and the US, and in past years has been quite active as an artist. Locally, his paintings have hung in galleries in San Francisco and Vallejo. Lately, however, various responsiblities have kept him away from his artwork—except for the two paintings on the pipe. "It's the only artwork I've done in three years."

This dabbling put him back in the mood, however. Perhaps, he says, it's time to dig out his paints and palette at home.
